Thro' these bright orbs' dark centres
darts a ray!"

We ask who is it that cannot "read a noble pathos in the skies?" Who but a power almighty could kindle these first-light up these innumerable lamps in the vault of heaven, not only for the purposes of ornament and beauty, but, in a natural sense, emphatically to be our "light in darkness?"

"But I am persuaded a benighted traveller, whose journey leads him through a dreary and dangerous path, would be able to see more than bare Almighty power employed in the creation of the heavens. He would see more—he would see infinite wisdom and unbounded beneficence also united in this infinite labor; all engaged in creating, adorning and beautifying the illimitable regions of ether."

Elevating his eyes towards the heavens to explore the star which shed its diminished lustre upon his path, if he should see millions of them all darting at the same time their pale rays athwart the gloom, and, as a lamp, giving light to his benighted footsteps, we doubt not, had he never heard a word of revelation nor Genesis, he would see adorable wisdom and godlike beneficence in all this; and, in silent wonder, he would have adored that unknown and mysterious Being who, upon the disappearance of the sun in faded glories in the west, has prepared these "lights of the firmament" to glimmer forth amidst the darkness of night with such picturesque variety in the heavens for his entertainment and use.

Day unto day, says the psalmist, uttereth speech, and night unto night sheweth wisdom. If profound intelligence, if unsearchable wisdom and unfathomable mind is not involved in this providence of things, and does not conspicuously appear in the vicissitude of day and night, the sun's rise in the east and declension in the west, the waxing and the waning of the moon, and the appearance or disappearance of the stars as the sun rises or sets, we say that it is then high time for us all to turn materialists, and to go to dubbing the reality of every thing appearing to spirit. Let us extinguish the lights of our reason, and deny the ingenious artist design in a piece of mechanism where it obviously appears.

But nothing is more evident to the senses than that matter itself possesses no motion, and seems only to exist for the sake of intelligent beings. Is this were not so, we should see tones, in ligament at their oppressive confinement, starting up in our streets and loudly and bitterly complaining of this vile usage, resenting the injury done them, and asserting their rights of equality with intelligence and reason.

Now, to the eye of philosophy, the earth which we inhabit (and which holds a distinguished place among the heavenly bodies) is a huge mass of unwholly matter; and we believe the reasoning is just that the larger any body, the greater, in proportion, will be the difficulty to set it in motion. Look then at the earth in its revolutions around the sun—observe its remarkable swiftness by the sun, which seems to rise in the east and to set in the west, and answer me, who but the Divine Being could perform this mighty work? Who but Him could originally have set the earth and all the heavenly bodies in motion, and given laws as it were to the sun, that he knoweth the time of his going down, and commandment to the moon, that she knoweth her seasons?

We, therefore, are warranted in asserting that the earth alone is a full demonstration of the power and being of God. Like a stone, possessing no power of itself to move, this physically impossible that it could have set itself in motion. But it does perform an astonishing revolution around the sun. We conclude then, in the beginning, when it took possession of the orbit which it now occupies among the heavenly bodies, it must have been placed there by an almighty hand. (Nor can we, in this place, conceive any difficulty in crediting Joshua's testimony of a miracle which he performed upon the sun and the moon, to authenticate and to support a revelation of himself to his creatures. It being perfectly natural to conceive that He who created the sun and the moon, and all the planets, possesses omnipotence to fulfill the commandment given by Joshua to the sun to stand still, and for the moon to go down in the vale of Argoon.)

We are restrained from offering any remarks on the law of attraction and repulsion in the sun, by which the revolutions of the earth, and all the heavenly bodies are preserved and perpetuated with such harmony and order; also, of the rapid motion of light, and of its effects upon the constitution. These things may amuse philosophers, but it is not absolutely necessary for the humble christian first

to become a philosopher in order to see God in the works of creation; as some have argued that we first learn the original language of the sacred text in order to see God in revelation. No—we affirm an enlightened understanding is sufficient to do this; but of the sun, the moon and the stars, that

In reason's sun they all rejoice,
And utter forth a glorious voice;
For ever singing as they shine,
"The hand that formed us is divine!"

Nor is it requisite in order to know in the temple of natural religion that God is the "Father of lights," that light has been proved by many experiments to travel at the astonishing rate of 194,188 miles in one second of time, and comes from the sun to the earth in 8 minutes 11 43-56 seconds, a distance of 95,513,794 English miles.

EAST-INDIA NEWS.

Calcutta, Oct. 1.

Extract of a letter from Meerut, dated the 12th ultimo.

"All the troops in this part of the province will be soon in motion; some have already moved with secret orders. The horse Artillery, and 8th Dragoons are ordered, to march from hence on the 19th, and to be at a certain point, 19 miles off, on the Jumna, by 8 A. M. on the 10th proximo.

A battalion of the 7th, under the command of Major Dare, marched from Delhi, on the 10th ult. with orders to be at their station on the Jumna, on the 1st instant.

By the latest accounts, the most noble the Gov. General, remained at Cawnpore, and it was not known when he would leave it.

October 8.

The movements of the different divisions of the Bengal and Madras Armies, now assume a particular interest, and will probably shortly develop the plan of the campaign. At present Sagur appears to be the point on which they are likely to move. We regret to learn that Sir T. Hislop has suffered so much from indisposition, as to be unable to advance beyond Hyderabad. The force in that quarter had in consequence been placed under direction of Brig. Gen. Sir J. Malcolm, who was approaching Nazeepore.

Letters from Cuttack, of the 7th inst. mention that the refractory Rajah of Rongpoor, and his prime minister and admiral have fallen into our hands.

THE GRAND ARMY.

We have been favored with the disposition of the armies taking the field in the Upper Provinces. The operations now begin to assume a considerable degree of interest; and we doubt not will lead to consequences eminently beneficial to the welfare of the British empire in the East.

We are happy to state that the disorder which has caused so much mortality among the lower classes of natives, has considerably subsided.

Extract of a letter from Nagpore.

General Malcom is on his march towards this, with two divisions of the Coast Army—It is expected that one of these divisions will remain to guard the Ghats and passes of the Nerbuddah, immediately in this neighborhood, and that the other, together with this force, will cross this river and proceed against the Pindarries, who are fortifying themselves in the strong holds in the hills, and increasing their numbers by recruiting matchlock men from all quarters. Scindeah (contrary to what might have been expected from his character) puts on a bold face, but people who observe accurately, and have, perhaps, good means of information, say that it is merely ostensible, and that we shall have little fighting.

OUR RELATIONS WITH SPAIN.

From the Nat. Intelligencer, March 16.
On Saturday the President communicated to the House of Representatives, a complete view of the state of our Relations with Spain, up to this date.

The Message and the Report of the Secretary of State are as follows.

To the Speaker of the House of Representatives.

In compliance with a resolution of the Senate of the 16th of December, and of the House of Representatives of the 24th of February last, I lay before Congress a report of the Secretary of State, and the papers referred to in it, respecting the negotiation with the Government of Spain. To explain fully the nature of the differences between the U. States and Spain, and the conduct of the parties, it has been found necessary to go back to an early epoch. The recent correspondence, with the documents accompanying it, will give a full view of the whole subject, and place the conduct of the United

States, in every stage, and under every circumstance, for justice, moderation, and a firm adherence to their rights, on the high and honorable ground, which it has invariably sustained.

JAMES MONROE.

Washington, March 14th, 1818.

Department of State, 14th March, 1818.

The secretary of state, to whom have been referred the resolutions of the Senate of 16th December, and of the House of Representatives of 24th February last, has the honor of submitting to the President the correspondence between this department and the Spanish minister residing here, since he received the last instructions of his government to renew the negotiation which, at the time of the last communication to Congress, was suspended by the insufficiency of his powers. These documents will show the present state of the relations between the two governments.

As in the remonstrance by Mr. de Onis of the 6th of December, against the occupation by the U. States of Amelia Island, he refers to a previous communication from him, denouncing the expedition of Sir Gregor McGregor against that place, his note of 9th July, being the paper thus referred to, is added to the papers now transmitted. Its date, when compared with that of the occupation of Amelia by McGregor, will show that it was written ten days after that event; and the contents of his note of 6th December will show that measures had been taken by the competent authorities of the U. States to arrest McGregor as soon as the unlawfulness of his proceedings within our jurisdiction had been made known to them by legal evidence, although he was beyond the reach of the process before it could be served upon his person. The tardiness of Mr. Onis's remonstrance is of itself a decisive indication of the impatience of the U. States against any impugnation of neglect to enforce the laws; for, if the Spanish minister himself had no evidence of the project of McGregor, sufficient to warrant him in addressing a note upon the subject to this department, until ten days after it had been accomplished, it cannot be supposed that officers, whose authority to act commenced only at the moment of the actual violation of the laws, and who could be justified only by clear and explicit evidence of the facts in proof of such violation, should have been apprized of the necessity of their interposition in time to make it effectual before the person accused had departed from this country.

As, in the recent discussions between Mr. Onis and this department, there is frequent reference to those of the negotiation at Aranjuez in 1805, the correspondence between the extraordinary mission of the U. States at that period, and Don Pedro Cevallos, then the minister of foreign affairs in Spain, will be also submitted as soon as may be, to be laid before Congress, together with the correspondence between Don Francisco Pizarro and Mr. Erving, immediately preceding the transmission of new instructions to Mr. Onis, and other correspondence of Mr. Onis with this department, tending to complete the view of the relations between the two countries.

JOHN QUINCY ADAMS.

The documents are of such volume, that it would require the whole space of our columns for a week to publish them. We must therefore content ourselves with the following Abstract, for the present.

No. 1. Is a letter from the Spanish minister to the secretary of state, remonstrating against the expedition of Sir Gregor McGregor, then on foot.

No. 2. Is also a letter from the Spanish minister to the secretary of state, dated Dec. 6, 1817, remonstrating against the measure, just announced in the president's message, of the suppression of the establishments at Amelia Island and Galvezton.

No. 3. Is a letter from the same to the same, of the 10th Dec. 1817, announcing his readiness and desire to renew the negotiations on the existing differences between the U. States and Spain, and to bring the same to a speedy determination.

No. 4. Is a letter from the secretary of state to the Spanish minister, appointing a time to communicate with him on the subject of his last note, and assuring him of the satisfaction of the president at the information it conveyed.

No. 5. Is a long letter from the minister of Spain, of 19th Dec. last, containing a treatise relative to the Eastern Boundary of Louisiana, and advancing anew all the claims heretofore set up by Spain in this respect.

No. 6. Is a letter of still greater length of the 5th January last, from the Spanish minister, and of the same character, respecting the Western Boundary of Louisiana.

No. 7. Is a letter, also of considerable length, of the 8th January last, respecting the claims of the United States on Spain for SPOLIATIONS.

No. 8. Is a letter from the Spanish minister of the same date, making a formal protest against the actual occupation of Amelia Island, just then announced by the president to Congress.

No. 9. Is a letter from the secretary of state to the Spanish minister, under date of the 16th January, waving a reply to the long letters of M. De Onis, on the ground of the slowness of the subjects of

them, and their frequent discussion heretofore; promising a negotiation in specific terms; justifying the occupation of Amelia Island; and expressing a desire to proceed to conclude a treaty, without exerting to a course of proceeding, the only result of which must be further procrastination.

No. 10. Is a letter from the Spanish minister, of date January 24, containing a discussion of the old topics is avoided, and intimating that it must be because his arguments and the claims of Spain are unanswerable, &c.; proposing a different project of a treaty; and renewing the protest against the occupation of Amelia Island and Galvezton.

No. 11. Is another letter from the Spanish minister, soliciting a reply to his former letters, recapitulating his former points, and offering to submit the differences between the United States and Spain to the mediation of any one or more of the European powers.

No. 12. Is a very long and able reply from the secretary of state (in the several letters of the Spanish minister, complying with his wish for a particular reply to his representations, and commencing at the source of each of the subjects of difference, and exploring them to their present state. This letter, framed with much precision and force, may be considered as conclusive. It is impossible to present the whole of it in one paper.—We have selected the concluding paragraphs, which will afford to every reader a general idea of the present state of our relations with Spain.

Extract of a letter from Mr. Secretary Adams to Don Luis De Onis, dated March 12, 1818.

You perceive, sir, that the government of the United States is not prepared either to renounce any of the claims which it has been so long urging upon the justice of Spain, or to acquiesce in any of those arguments which appear to you so unanswerable and irresistible. Determined to pursue the establishment of their rights as long as by any possibility they can be pursued through the paths of peace, they have acquiesced, as the Message of the President at the commencement of the present session of Congress has informed you, in that policy of Spain which has hitherto procrastinated the amicable adjustment of these interests—not from an insensibility to their importance to the union; nor from any indifference to the object of being upon terms of cordial harmony with Spain—but, because peace is among the dearest and most cherished objects of their policy—and because they have considered, and still consider it, more congenial to the principles of humanity, and to the permanent welfare of both nations, to wait for the favorable operations of time upon the prejudices and passions opposed to them, than to resort to the unnecessary agency of force. After a lapse of thirteen years of patient forbearance, in waiting for the moment when Spain should find it expedient to meet their constant desire of bringing to a happy and harmonious termination all the conflicting interests between them, it will need little additional effort to wait somewhat longer with the same expectation. The President deems this course even more advisable than that of referring the questions depending between the two nations to the arbitration or mediation of one or more friendly European powers, as you have been authorized to propose. The statement in your note of the 10th of February, in reference to this subject, is not altogether correct. It is not the British government which, on this occasion has offered—but your government which, without first consulting or asking the concurrence of the United States, has requested the mediation of Great Britain. The British Government, as must be well known to you, have declined the offer of their mediation, unless it should be requested by both parties; and have communicated to the Government of the United States this evasive on the part of Spain. The President has thought proper from motives which he has no doubt will be deemed satisfactory, both to Great Britain and Spain, to decline fully in this request. He is indeed, fully persuaded that, notwithstanding any prepossessions which the British government may heretofore have entertained with regard to any of the points in controversy, they would have been entirely discarded in assuming the office of a mediator. But it has hitherto been the policy, both of Europe and of the United States, to keep aloof from the general federative system of each other.—The European states are combined together, and connected with one another, by a multitude of important interests and relations, with which the United States have no concern, with which they have always manifested the determination not to interfere, and of which no communication being made to them by the Governments of Europe, they have not information competent to enable them to estimate their extent and bearings. The United States, in justice to themselves, in justice to that harmony which they earnestly desire to cultivate with all the powers of Europe, in justice to that fundamental system of policy which forbids them from entering the labyrinth of European politics, must decline soliciting or acceding to the interference of any other government of Europe for the settlement of their differences with Spain. But however discouraging the color and character of your recent notes has been to the hopes which the promises

and professions of your government had excited, that the time for adjustment of these differences with Spain herself, had at length arrived, the United States will not abandon the expectation that more correct views of the subject will ultimately be suggested to your government, and they will always be disposed to meet them in the spirit of justice and amity. With regard to those parts of the Province of Louisiana, which have been incorporated within the state of that name, it is time that the discussion should cease.—Forming a part of the territory of a sovereign and independent state of this union, to dispose of them is not within the competency of the executive government of the U. S.—nor will the discussion be hereafter continued. But if you have proposals to make, to which it is possible for the government of the United States to listen with a prospect of bringing them to any practicable conclusion, I am authorized to receive them, and to conclude with you a treaty for the adjustment of all the differences between the two nations, upon terms which may be satisfactory to both.

With regard to the motives for the occupation of Amelia Island, the Message from the President of the United States to Congress, and my letter to you of the 16th January, have given the explanations which, it is presumed, will be satisfactory to your government. The exposure and feeble situation of that island, as well as of the remainder of East Florida, with their local position in the neighborhood of the United States, have always been among the primary inducements of the United States for urging to Spain the expediency to the interests of both nations, that Spain should cede them for a just and suitable equivalent to the United States.

In the letter of the 28th of Jan. 1805, from Messrs. Pinkney and Monroe, to Mr. Cevallos, the following passage stands prominent among the arguments used by them to that effect. "Should Spain," say they, "not place a strong force in Florida, it will not escape your excellency's attention, that it will be much exposed to the danger of being taken possession of by some other power who might wish to hold it with very different views towards Spain than those which animate the government of the United States. Without a strong force being there, it might even become an asylum for adventurers and freebooters, to the great annoyance of both nations."

You know, sir, how far the events thus anticipated and pointed out so early as in January 1805, to the prudent forecast of Spain have been realized. Pensacola has been occupied by another power, for the purpose of carrying on war from it against the United States, and Amelia Island has been occupied by adventurers, to the great annoyance of both nations, and of all others engaged in lawful commerce upon the Gulf of Mexico. Before these occurred, the Congress of the U. S. aware of the great and growing danger of them, which had been so long before distinctly foreseen, had made it the duty of the Executive government, in the case of such a contingency, to take the temporary possession of the country, which might be necessary to avert the injuries that must result from the possession of Spain, but of those from whom she had been equally incapable of keeping or of recovering its possession, and who were using it for purposes incompatible with the laws of nations and of the United States. No purpose, either of taking or of retaining it as a conquest from Spain, has ever been entertained, and unless ceded by Spain to the United States, it will be restored, whenever the danger of its being again thus occupied and misused shall have ceased.

It is needless to add, that the proposal that the United States should take any further measures than those already provided by law for preventing armaments hostile to Spain within the territories of the U. S. is inadmissible. The measures already taken, and the laws already existing against all hostile armaments within our jurisdiction, incompatible with the obligations of neutrality, are sufficient for its preservation, and necessary means will continue to be used, as they have been, to carry them faithfully into execution.

I have the honor to be, with great consideration, sir, your obedient and very humble servant.

Also,

STOMACHIC BITTERS.

These celebrated bitters are composed purely of vegetables of the most innocuous, yet specific virtues, and are infinitely superior to any thing yet discovered, for restoring weak and decayed constitutions, destroying worms, cleansing and strengthening the stomach, increasing the appetite, and by the frequent use of them, they are a certain preventive against those complaints so common in the spring and fall seasons, such as intermittent fevers, and agues, long Autumnal fevers, dysenteries, &c. They are also of infinite service to those in the seafaring line, who make long voyages at sea, and are exposed to unhealthy climates—a preventive against contagious disorders—they are also a very pleasant bitter and are particularly recommended for the use of Tavern and Public houses, as well as private families.

James Kennedy & Son,
RESPECTFULLY inform the public
that they have just received from
LEE'S MEDICINE STORE,
No. 45, Maiden Lane, New-York, a fresh
supply of the following valuable MEDI-
CINES:
**Hamilton's Worm Destroying Lozen-
ges.**

Which have within sixteen years past
cured an immense number of persons of
both sexes of every age and in every
situation, of various dangerous complaints
arising from WORMS, and from obstruc-
tions or foulness in the stomach and bow-
els.

This medicine bears no analogy what-
ever to others of similar titles so com-
monly complained of as operating with
violence; on the contrary a particular
excellence of this remedy is its being
suited to every age and constitution. It
contains nothing but what is perfectly in-
nocent & is so mild in its operation that it
cannot injure the most delicate pregnant
lady or the tenderest infant of a week old
should no worms exist in the body; but
will without pain or griping cleanse the
stomach and bowels of whatever is foul
or offensive, and thereby prevent the dis-
turbance of worms and many fatal dis-
orders. The lozenges are particularly
efficacious in carrying off all gross hu-
mours and eruptions, feverish and bilious
complaints, and are the safest and mild-
est purgative that can be used on any
occasion.

**Description of Worms, and the sym-
ptoms by which they are known.**
Worms which infest the human body
are chiefly of four kinds viz.—The Ter-
rea, or large round worm; the Ascari-
des, or small maw-worm; the Oeuri-
dine, or short flat white worm; and
lastly, the Tinea, or tape-worm, so called
from its resemblance to tape. This
is often many yds long and is full of
joints. It is most hurtful and most diffi-
cult to remove.

Among the symptoms attending worms
are—disagreeable breath, especially in
the morning; bad and corrupted gums;
itching in the nose, and about the seat;
convulsions, epileptic fits, and sometimes
privation of speech; starting and grind-
ing of the teeth in sleep; irregular ap-
petite, sometimes loathing food and some-
times voracious; purging with slimy and
acid stools; vomiting; large and hard
belly; pains and sickness at the stom-
ach; pains in the head and thighs and
lowness of spirits; slow fever with small
and irregular pulse; a dry cough; exces-
sive thirst; sometimes pale and unhealthy
countenance, and sometimes the face bloated
and flushed.

Persons afflicted with any of the above
symptoms should have immediate re-
course to Hamilton's Worm Destroying
Lozenges, which have been constantly
attended with success in all complaints
similar to those above described.

A dose of this medicine given occa-
sionally during the warm season, will ef-
fectually prevent "the vomiting and pur-
ging of children"—a dreadful disorder;
which annually destroys thousands of the
infant part of our citizens. It is likewise
the mildest and most certain remedy
known, and has restored to health and
strength a great number when in an ad-
vanced stage of this fatal complaint. Par-
ticular and plain instructions are given
for every part of the necessary treatment
in such cases.

Children generally take this medicine
with eagerness; having a pleasing appear-
ance, and an agreeable taste.

**The Restorative Powder for the
Teeth and Gums.**

For the prevention and cure of
BILIOUS and MALIGNANT FEVERS
is recommended
HAHN'S ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of person
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and farther,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
esteemed desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.
